
Telling it as it is

To the editor:

I want to thank Helen Sloan for the excellent letter — Placards sent out powerful message — in your July 11 edition.

Surely if more people would take the time to explain to their children what really takes place during abortions we could end this horrible act.

Helen's letter was very graphic and yet instead of being turned off

by the truth I felt compelled to write and add my voice. Please keep on telling it as it is. Please keep telling women, there are no unwanted babies, only unwanted pregnancies.

There are other solutions and those unwanted babies will always find a loving home if allowed to live. Please give them a chance.
